Please find attached the community totals for December.

\*The Computer Commuter did not run the week between Christmas and New Years. Attendance was down perhaps due to the bitter cold and Holiday bustle.

\*48 people came on board the Computer Commuter this month.

\*We gained a new user this month in both Dawson and Madison.

Number of personal devices brought onto the bus with requests for help:

Laptops: 9 Tablets: 6

Smart phones: 0

USB: 6

Just a reminder, the bus follows local school closings and early dismissals due to inclement weather.

\*Please contact me if you have questions or concerns. Thank you for your continued support!

40. Page 2 FAIRWAY VICU 41. Property located at \_\_\_\_ 42. MLS DATA FEED OPTIONS: 43. **EXPLANATIONS AND DEFINITIONS:** "IDX site" means a web site operated by a broker participating in the MLS on which the broker can advertise the 44. listings of other brokers in MLS, subject to certain MLS rules. The consumer visiting an IDX site is not required to 45. register on the site or to have a brokerage relationship with the broker displaying listings on the site. 46. "Virtual office web site" ("VOW") means a web site operated by a broker participating in the MLS that delivers 47. brokerage services to consumers over the world wide web. Visitors to a VOW are required to register on the site (with 48. their name and a real e-mail address) and enter a brokerage relationship with the broker operating the VOW. The 49. broker operating the VOW can then show the visiting customer/client nearly all of the information available to the broker 50. in MLS. The seller(s) of a listing has the right to opt out of certain kinds of data display under the MLS's VOW policy. 51. The MLS imposes various other rules and restrictions on VOWs. 52. For each of the following options, the MLS system automatically defaults to "Yes." Seller's instructions pertaining to the 53. Internet display of the MLS input data for the Property are as follows: 54. Option 1. Listing display on the Internet. If Seller selects "No," this listing will not be included in MLS data feeds 55. 56. to Internet web sites that display property listing data, whether intended for advertising the Property or 57. providing online brokerage services (e.g., VOWs). Brokers participating in MLS can still disclose the listing 58. to customers/clients via other means, including e-mail, fax, mail, hand delivery, and orally. 59. Shall the Property listing be displayed on the Internet, including sold information? Yes 60. Seller understands and acknowledges that if Seller has selected "No" for Option 1, consumers who 61. conduct searches for listings on the Internet will not see information about the Property in response to 62. their searches. 63. If "No" was selected at Option 1, skip Options 2-4. If "Yes" was selected for Option 1, continue to Option 2. 64. Listing address (house and unit numbers and street name) display on the Internet. If Seller selects "No," the address of the Property will be hidden on web sites receiving data feeds from MLS that result in 65. 66. Internet listing display, whether intended for advertising the Property or providing online brokerage services (e.g., VOWs). Brokers participating in MLS can still disclose the address to customers/clients via other 67. 68. means, including e-mail, fax, mail, hand delivery, and orally. 69. Shall the listing address (house and unit numbers and street name) be displayed 70. on the Internet? Yes No 71. Option 3. An automated valuation of the Property listing or a link to an automated valuation of it may be 72. displayed adjacent to the listing. Some VOWs or IDX sites may provide an automated valuation model 73. ("AVM") function/service. An AVM uses statistical calculations to estimate the value of a property based 74. upon data from public records, MLS, and other sources, and incorporating certain assumptions. The 75. accuracy of AVMs has sometimes been criticized because they do not take into consideration all relevant factors in valuing a property. Seller, by selecting "no," may prohibit display of an automated valuation of his 76. 77. or her listing adjacent to the listing. 78. Shall an automatic valuation of the Property listing or a link to an automated 79 valuation be displayed adjacent to the listing? Yes No 80. Comments or reviews of the Property by persons other than the displaying broker may be displayed Option 4. with or attached as a link to the listing data of the Property. Some VOWs or IDX sites may provide 81. 82. functionality that permits the customers/clients using the VOW or IDX site to enter comments or reviews with the listing or by hyperlink to such comments or reviews. Note that the broker displaying the listing on 83. his or her VOW or IDX site may add commentary representing his or her professional judgment regarding 84. 85. the listing's value, etc. 86. Shall comments or reviews of the Property by persons other than the displaying 87. broker be displayed with or attached as a link to the listing data of the Property? Yes No
